

2025 Delta Agenda

2025 年 12 月 20 日 星期六		
Dec. 20, 2025 Saturday		
时间 Time	议程 Schedule	地点 Location
8:30-9:00	签到 Check-in	Global Village Building 1, 2 nd Floor Science Lecture Hall
9:00-9:50	Report 1: Transserial tame pairs are tame Reporter: Nigel Pynn-Coates (Kurt Gödel Research Center for Mathematical Logic, University of Vienna)	
10:00-10:50	Report 2: Punctual structures and their applications Reporter: Nikolay Bazhenov (Sobolev Institute of Mathematics)	
11:00-11:50	Report 3: Existence of Equilibria in Large Competitive Markets with Bads, Production and Comprehensive Externalities Reporter: Robert Anderson (University of California, Berkeley)	
12:00-14:00 午餐 Lunch		
14:00-14:50	Report 4: Profinite rigidity of crystallographic groups arising from Lie theory Reporter: Davide Carolillo (University of Turin)	Global Village Building 1, 2 nd Floor Science Lecture Hall
15:00-15:50	Report 5: Approximation Analysis of Nash Equilibrium Algorithms by Machines Reporter: Hanyu Li (Peking University)	
16:00-16:50	Report 6: Ramsey regularity implies no mad families without uniformization Reporter: Jialiang He (Sichuan University)
